

Publish with confidence

iThenticate lowers risk of retractions and protects the publishers' reputation

When iThenticate is a core part of the publication process, it can help editors flag questionable content before they run the risk of retractions. Avoid the damage, embarrassment, and cost that plagiarism can bring. Instead, build your reputation by publishing high quality, plagiarism-free research with confidence.

The screenshot displays the iThenticate interface. On the left, a manuscript snippet is shown with several lines of text highlighted in pink. On the right, a 'Match Overview' sidebar lists six matches with their respective similarity percentages: 9%, 4%, 3%, 2%, 2%, and 1%. The top of the interface shows '597 words • 10 matches • 6 sources' and a '23% SIMILAR' indicator.

Match	Source	Words	Similarity
1	Internet	55 words	9%
2	Crossref	28 words	4%
3	Internet	19 words	3%
4	Internet	15 words	2%
5	Internet	12 words	2%
6	Internet	9 words	1%

“iThenticate is an incredibly powerful tool. I run each and every new submission through iThenticate before I even think about inviting peer reviewers to review the paper. Keep up the good work!”

Jim Dooley,

Associate Editor, Integrated Systems and Economic International Journal of Greenhouse Gas Control
