

# GLOBAL REWARD SOLUTIONS & NETLEADERS PARTNERSHIP OVERVIEW

NetLeaders provides easy access to the Das ecosystem, empowering the community through a myriad of blockchain-based services and applications. The more the network is used, the more the system itself is empowered and the more valuable it becomes. By growing the network and being rewarded for doing so, the community empowers others into financial freedom and control.

As businesses and entrepreneurs purchase licenses to resell NetLeaders's products and services and generate new customer bases, they earn points along the way within the NetLeaders rewards program. The program is global and the rewards are supplied by local, in-country vendors of Apple branded merchandise. The program launched in April 2018.

## Here is a sampling of countries where recent orders have originated in:

- |                |                |
|----------------|----------------|
| China          | Poland         |
| Cyprus         | Singapore      |
| Czech Republic | Slovakia       |
| India          | Thailand       |
| Ireland        | United Kingdom |
| Malaysia       | United States  |
| Netherlands    | Vietnam        |

## USER EXPERIENCE FLOW

- 1 End user purchases license to resell NetLeaders product/service.
- 2 End user's sales details are provided to NetLeaders each month.
- 3 NetLeaders Program Admin uploads a member file in to the rewards program.
- 4 A welcome email is sent to the end user with their login details and congratulatory message stating that the user has points available to spend on Apple products.
- 5 NetLeaders Program Admin uploads the points file at the same time to assign points to all new licensees.
- 6 End user logs in to the rewards program site and redeems their points for either of two Apple branded merchandise:
  - a. iPhone 8 64GB
  - b. MacBook Pro 128GB
- 7 GRS team receives the order file and processes the order.
- 8 End user receives their reward gift via courier.
- 9 NetLeaders is invoiced by GRS every two weeks.

## CORE BENEFIT OF GRS-NETLEADERS COLLABORATION

The core improvement that GRS has been able to provide NetLeaders with is being able to migrate from their legacy bulk ordering system, which was costly, laborious and time-consuming. Today, all orders are processed automatically in real-time by GRS as soon

as the end user goes through the online rewards order placement process. As an added benefit to NetLeaders, we provide them with a "credit" whenever an order is fulfilled. The core benefits include:

**Quicker Order Processing**

**Improved customer relationship between NetLeaders and end users**

**Collection and verification of end user order data**

**Ability for end users to track their orders and view order history**
