

Questions to Ask Your Doctor

The questions below may help guide your conversation with your doctor about TMR.

- ✔ Based on my history and goals, am I a good candidate for TMR?
- ✔ Has TMR been effective in relieving your patients' post-amputation pain?
- ✔ How long do your patients say it takes to feel nerve pain relief?
- ✔ How long have you been performing TMR surgery?
- ✔ What do you consider a successful TMR surgery to be?
- ✔ What else may be causing my pain, and will that be addressed?
- ✔ How long will the surgery last?
- ✔ Where will my incision be?
- ✔ Will I have to stay in the hospital?
- ✔ What are the risks of the surgery?
- ✔ What will you do for pain management following surgery?
- ✔ How often will I need to see you following surgery?
- ✔ When will I be able to put my prosthesis back on?
- ✔ When can I return to work following surgery?
- ✔ When can I start driving again?
- ✔ When will I begin to feel relief from nerve pain and phantoms?
