ABOUT:

Denovo and Oracle Cloud Eliminate the Infrastructure Headache

X-Nav Technologies is a medical device company that develops surgical products for the dental market that advance patient care while improving doctor productivity. X-Guide™ is a revolutionary system with dynamic 3D navigation that delivers interactive, turn-by-turn guidance giving dentists the ability to improve the precision and accuracy of implants.
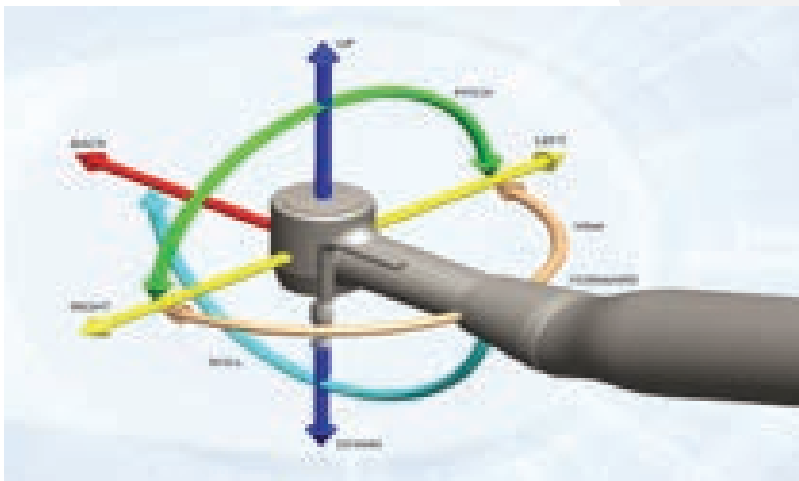

CHALLENGES:

- Scalability to support future implementation of functionality
- Existing system performance
- Resources consumed with managing infrastructure
- On-going capital requirements for new infrastructure

RESULTS:

- Eliminated on-premise hardware
- Eliminated ongoing capital requirements
- Reallocated resources managing infrastructure

www.xnavtech.com

Location: Lansdale, PA, USA
Industry: Medical/Dental Technologies
