

Reduce Risk with a Proven Cloud

In a recent study, 49% had slowed cloud adoption due to lack of cybersecurity skills¹

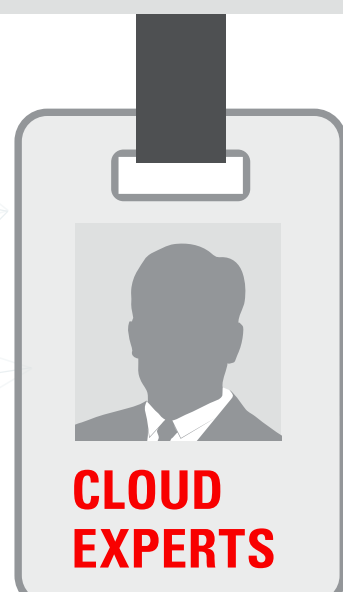

- Lack of in-house security expertise?
- Get proven cloud security experts.

Why do you need a proven cloud for your business?

1 REDUCE RISK

Oracle has badged cloud experts to look after cloud security, 24/7. Eliminate headaches and reduce costs by having Oracle maintain cloud security for you.

2 GLOBAL STANDARDIZATION AT SPEED

Standardize & transform

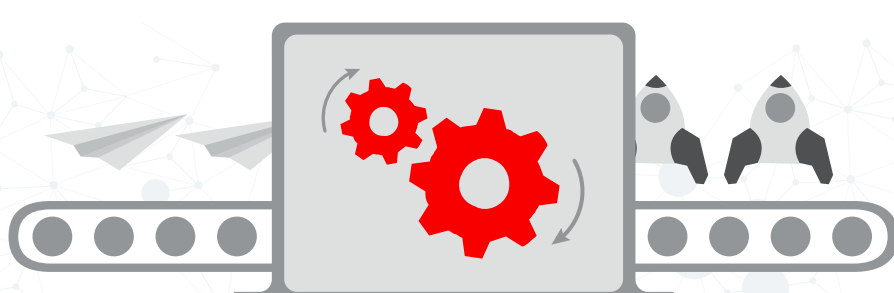

- Standardize and transform business processes
- Enable global security policies quickly

3 SECURE AND SCALABLE

Go global with secure business transformation at scale.

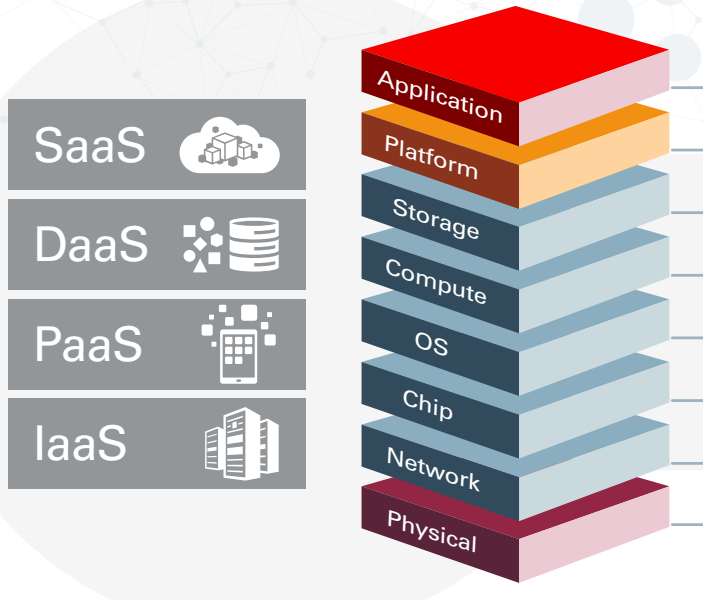

Example:
[900,000 receipts per hour across 12 geographies](#)

A Unique Advantage

Oracle's proven cloud is designed to be secure at every layer of the stack. Scale with unlimited performance.

Oracle's multi-layer secure cloud approach is a major advantage for you, goes beyond every other cloud provider.

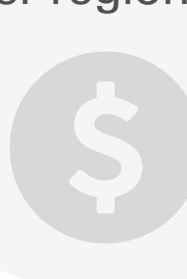

Oracle Cloud is designed to be secure at every layer from physical data center security, to network, to hardware, chip and OS, to storage / disk / database, to platform, to the application layer.

Oracle provides global access controls for onboarding and offboarding your workforce consistently.

Oracle continually invests in every layer of cloud security as part of its overall design across global data center regions.

MILLIONS OF USERS TRUST ORACLE CLOUD EVERY DAY

Here are some numbers to prove it:
