

The #1 endless aisle solution for independent retailers in the lawn and garden industry.

Feature-enhanced POS built for growing businesses.
Digitized order management workflow.
End-to-end supply chain visibility.

Deliver the ultimate customer experience.
Your business vs big box retailers - problem solved!

“ Alice POS allows us to quickly access our inventory catalog, manage pre-orders and easily create invoices. In addition, Alice’s customer service is always there to answer our questions at critical moments. ”

“ Smaller stores are never out of stock. With endless aisle, customers browse a full product library of both physical and virtual goods. Never miss a sale again. Plus customers can order for convenient delivery to home or in-store. ”

Point-of-Sale Focused for Lawn & Garden

Alice POS is a next-gen cloud-based point-of-sale software package that future-proofs your lawn and garden center.

Features include:

- **Labeling:** format to handle complex/Latin names, adapt to fit product
- **Detailed customer files:** customize the buyer experience
- **Rental services support:** availability, rental dates, and item condition
- **Promotion tools:** run, track, and control duration
- **Mobile device compatibility:** reduce lines, email receipts, order outside
- **Price management:** uniform or add unique items/pricing to single-store
- **Special orders:** track orders with not-in-stock items

How we are different

MULTI STORE
Network Management.
Franchises. Corporate.
Purchasing Groups.

CLOUD
Accessible. Everywhere.

CROSS-SALES
Effective. Income.

INTER-STORE TRANSFERS
Quick. Easy.

E-COMMERCE
Harmonized. Omnichannel.

ALL-IN-ONE SYSTEM
Rent. Consign. Trade-In.
Purchase. Repair. Used.

INVENTORY
Standardized. Specific. Serialized.

INSTALLATION
Unlimited Installation.

Integrate with ORDEREASE

Access to Supplier Data, Supplier Ordering via POS

Avoid the cost and resources normally associated with manually updating POS product data. Pull supplier data directly into POS and eCommerce. Place supplier orders directly via the POS.

Digitize Order Management Workflow

Sync the POS to centralize and organize all your in-store and eCommerce orders. Track your inventory in real-time. Integrate with OrderEase for vendor fulfillment eCommerce capabilities.

E2E Supply Chain Visibility

The POS becomes a key integration point to creating an end-to-end digitally-enabled supply chain network. Better access to inventory availability. Vendor fulfillment eCommerce capabilities. Seamless buying experience.

Save time. Cut costs. Boost revenue.
